Composite Doors

by Camden

Additional Notes:

All images shown are for illustration purposes only and may differ from the actual product supplied. All glass designs are manufactured under rigorous quality controlled conditions, however due to the handcrafted techniques, designs may occasionally produce minor imperfections and may vary slightly from the design shown in the brochure.

Door Features

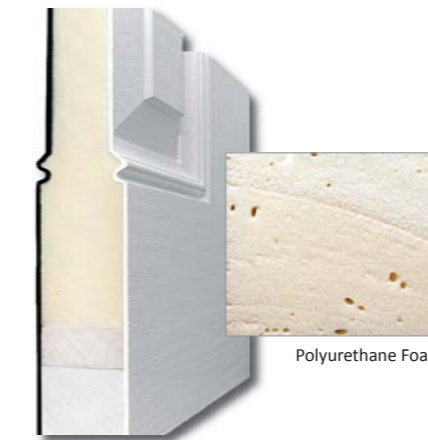

Composite doors are the ideal solution for homeowners seeking a thermally efficient, secure and stylish door; below are just some of the key features and benefits:

- Genuine wood-effect door, available in a range of styles and colours with matching glass designs
- The composite door is strong and durable; ensuring your home and family are kept safe and secure
- All doors are fitted with high security, multi-point locking systems as standard
- All composite doors offer only the highest standards in thermal and energy efficiency
- With excellent weather resistant properties, the door will provide protection to your home during harsh weather conditions
- Composite doors will not rot and will require only the minimum amount of maintenance
- The door will fit perfectly into any existing home or new build property

Door Materials

With today's changing climate, demand for a door that is durable, secure and thermally efficient is high; that is why our Composite Door has been designed specifically to meet these demands:

- The core material of the composite door is **CFC-free polyurethane foam**, this provides outstanding levels of thermal efficiency and noise insulation
- The door's internal and external skins are constructed from an impact-resistant **Glass Reinforced Plastic (GRP)**
- GRP is light, but has a higher strength ratio weight for weight than mild steel, making the door extremely strong and durable.

Welcome...

Composite Doors are a range of secure, strong and stylish products that are designed to enhance and improve your home...

Manufactured at our state-of-the-art production facility, each product range is crafted to only the highest standards using tough, durable materials and advanced techniques throughout the manufacturing process. All products, therefore, offer only the highest standards in **quality, security and energy efficiency guaranteed.**

Door Colour Options

**Please note some matching coloured outerframes may be available as non-stock colour only - please check when ordering*
